

# E-NEWS FLASH

The Fortnightly from NICCI

Nepal - India Chamber of Commerce & Industry, Kathmandu

## An Executive's Day Out .....Sept 17th

NICCI brings for its members a different kind of an Interaction. A blend of learning, sharing, motivation & entertainment. An afternoon of engaging and relevant presentations from experienced top executives followed by an evening of Blues Rock.

The difference goes further than that ! The Speakers are the Music makers, too. And, a Jam with local businessmen & executives who are also music makers is the highlight of the music evening.

Flyers to this effect have already been sent and Registrations have begun.

Your Organisation is sure to benefit in many ways than one. So Register quick. Send in a representation of atleast 4 persons.

Come, Enjoy this 'Executive's Day Out' !

## Sector specific activity

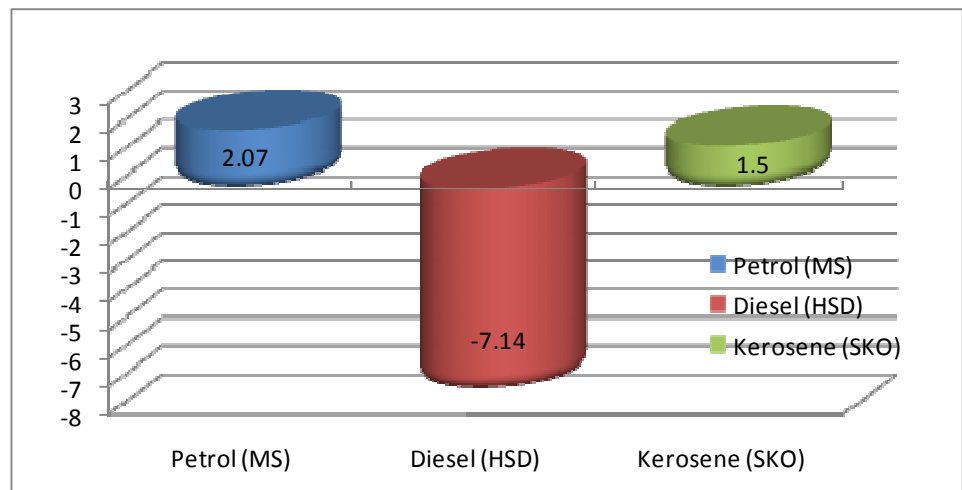

The membership of NICCI has a very interesting pattern. In terms of period of active membership, period of inaction & non-participation, type of Organisations, interests of Individuals driving such organizations & sectors of members. (see graph on pg 4). It is clear that NICCI was sought as a 'means to specific motive' by most members and that certain sectors got more attention in certain periods.

Now, the time is for certain other Sectors that have recently gained importance & relevance in the global, national and bilateral scene. Like say Biotechnology, IT, Power & Agro-based to name a few. NICCI will have Sector specific activity to bring in capacity building, investments, systems & HR. Sign up your interests & Priority sectors to help us design, plan and roll out such activities. (see pg 3).

The Graphs in this Issue are a part of the Ongoing work of the Research Cell

**Current Profit / Loss of Petroleum Products as Per IOC's Rate of 2011-09-01**
